1	**Fund 0110 Vouchers Payable**		
2			
3			
4	**To determine transactions included in Vouchers Payable at 9/30,**		
5			
6		1	Run the following script:
7			G:\Common\BusinessObjects\EmployeeServices\VoucherPayable_YEC.rep
8			Make sure the Appropriated Fund equals 0110
9			
10		2	Paste results into excel file
11			
12		3	Sort results by Curr Doc. Delete all transaction with Curr Doc beginning with ZS.
13			
14		4	Sort results by AE doc due date. Delete all transactions with due date of 9/27 and earlier.
15			
16		4	Sort results by AE doc due date and then transaction date. Delete all transactions with transaction date of 9/30 and earlier.
17			
18			
19			
20			
21		5	For remaining transactions, first sort by warrant number. All wire transfers (documents with warrant # beginning with "X")
22			should have cleared prior to 10/1. If wire transfer date is 9/30, you may need to verify payment date using R*STARS screen 47A, 47D, or 44.
23			
24			Review warrant isue date on screen 47A or 47D depending on doc type. All warrants with issue date on or after 10/1 should be included in the GL1211 balance.
25			Since vouchers are usually issued within 5 to 7 days of the document transaction date, (meaning a warrant is issued for the voucher), you generally
26			need only to review those vouchers with tranaction dates of 9/24 or 9/25 and later. The exception is when a voucher is issued with a future due date.
27			
28		6	Sum the amounts for all documents having an issue date on or after 10/1.
29			
30		7	Verify total on '89' screen.

17	By definition, all documents with a transaciton date on or after 10/1 and an effective date on or before **9/31**
18	are included in vouchers payable at year end. (Since the document was not generated prior to 10/1, it is
19	not possible for a warrant to have been issued prior to 10/1.)

Output - Answers the questions regarding what what we did or who we reach

Cell: H9
Comment: Author:
Time and activity expenditure types would only need to report "Appropriated Amount" if funds from a direct appropriation were being used.

Cell: AF9
Comment: Author:
Deleted number of hours as this refers to an input, the output is the number of bottles distributed.

Cell: H10
Comment: Author:
"Other" expenditure types (i.e. expenditures from other funds) would not need to include appropriated amount

1	We suggest reporting the activity by zip code separate from the expenditures and obtain this information from the SEOC through their MICIMS or GIS system.
